

February 2016

Dear Customer:

I am pleased to announce the introduction of [PriorIT Consulting, LLC](#) (part of the Esri Partner Network). We offer a full range of [Services](#), [Enterprise Service Program](#), [Support](#) and [Training](#) to provide strategic planning, analysis and design, development and deployment, and production and operations consulting for your enterprise GIS and IT programs at the highest level of quality and competitive pricing.

I have 25 years of experience with Esri GIS software and services from working at Esri in the Development, Product Management and Professional Services departments in a variety of industries, and over 40+ years of experience in the IT industry. While at Esri, I successfully provided IT Systems and Security Design and Development, Implementation and Support to hundreds of multi-million dollar clients over the years. I also bring a proven record of success in project management, process improvement, and streamlining systems, facilitated through utilization of emerging technologies such as Cloud. This experience will help you integrate GIS and IT with other business systems throughout your company and make your enterprise operations more successful.

I have an extensive background in GIS and information technology leadership and have developed exceptional expertise in managing large-scale technology projects, consistently delivering results within time and budget constraints, and designing innovative solutions to meet enterprise level environments within an organization.

PriorIT Consulting, LLC's goal is to support your organization from beginning to end, deliver solutions that support your company's enterprise GIS and System's IT requirements, while enhancing security and business continuity throughout your organization based on available technologies. To help you accomplish this, we can put together a customized, cost-effective program for you to meet your business objectives.

Please see our web site at <http://www.PriorITConsulting.com> to view important information about our offerings. We can work with you in any capacity that fits your needs and budget and personally guarantee our work. Please contact us today by phone or email, we would love to hear from you. We can then [send you information](#), or [set up a conference call](#) or [web cast](#) to discuss your requirements. Thank you very much for your consideration and we look forward to working with you in the future!

Sincerely,

Tom Pattison  
President
