

PriorIT Consulting, LLC
Where Customer Success Is Our Top PriorIT
IT for GIS

Company Profile

PriorIT Consulting, LLC provides enterprise level IT for GIS. Our main strengths come from working 26 years at Esri corporate office with hundreds of national and international customers, and spending 44 years in the IT industry. We specialize in the following:

- Providing holistic end-to-end customized GIS and IT Professional services, service programs, support and training for IT and GIS customers. Enterprise GIS and IT end-to-end capabilities.
- Strategic Planning, Requirements Gathering, System Health Check, IT and GIS Infrastructure Design, Development, Deployment and Maintenance of your Enterprise GIS operations
- Enterprise GIS, Portal, ArcGIS for Server, Oracle, SQL Server, security, highly-available deployments, cloud deployments, performance troubleshooting and tuning, software and hardware migration to new IT and GIS software and hardware technologies.
- We provide both custom IT and GIS training classes where we work on your individual situations
- We also provide customer IT and GIS phone and email technical support and advisor as needed
- Help you to define your requirements for Esri ELA, EEAP and Premium Support – save cost
- PriorIT Consulting, LLC is extremely customer focused and responsive, we do not just complete a contract but make sure the customer is satisfied working onsite, remotely or both
- Working with Esri business partners and distributors all over the world to cover all aspects of successful enterprise IT and GIS operations. This includes North America, South America, Asia, India, Europe, Australia, Middle East and Africa
- Certified and trained experts with Esri 10.7 products, IT and Database technologies
- No job is too large or too small for us to engage. Give us a call and let us help you today!

Whatever your requirements are, we can put together a custom service plan to meet your needs. Let us start with an enterprise Health Check of your current system first. Then, we can work with you to determine what it is you want to accomplish and the best and most cost effective way to get it done.

Please **contact** the following PriorIT Consulting, LLC staff below if you any questions, would like to **request services** or obtain a **proposal**. We would be happy to support you. We look forward to working with you and thank you very much for your consideration.

Sincerely,

Tom Pattison
